## WEED TENDENCY STILL VERY STRONG

Richmond Market Closes Second Week With Splendid Results and Everyone Pleased

The Richmond tobacco market closed its second week Friday with final sales at the Home House, Splendid prices prevailed all during the week. For general averages there isn't a market in the state that has "a thing on" the Richmond warehouses. Their patrons are getting the prices and all are satisfied. ## MAY PUT NEW BRIDGE OVER SILVER CREEK

Plans are being made by Judge Price Road Engineer J. G. Baxter and member of the Fiscal Court for the erection of a new bridge over Silver Creek, just north of Berea, where the damage was done by Jailer Burgess' car in the hands of two local negro men Thursday night. The old bridge is said to be really incapacitated for heavy traffic and the county's officials had under consideration installation of a new bridge there before the accident happened to the old one. The old bridge was put up 36 years ago, and is of iron, antiquated and too weak for heavy truck hauling, especially. County Road Engineer J. G. Baxter says that it will be almost impossible to salvage the old bridge which was "kicked" into Silver Creek by the car. A meeting of the Fiscal Court may be called at once to take up the matter as traffic will be seriously interfered with until something is done about the bridge.

But there is nothing to become alarmed about. Planets pass between the sun and the earth every 28 days. This month it so happens that four of them are within a space of four hours when viewed from the equator."
